SUMMARY

Full Stack Developer with a strong focus on back-end development. Experienced in creating robust and scalable server-side applications using Laravel. Passionate about optimizing performance and ensuring seamless integration across the stack

EDUCATION

Abdelhamid Mehri Constantine University 2, Constantine, Algeria— *Baccalaureate Degree in Computer Science*

October 2021 - May 2024

Focused on advanced topics in web development, database management, software engineering, and computer networks, with practical projects and applications.

EXPERIENCE

Freelance, Full Stack Developer

Full Stack Developer with expertise in Laravel, React.js, and Bootstrap. Developed multiple web applications, including an e-commerce platform and a portfolio website. Passionate about creating robust, scalable back-end solutions and contributing to open-source projects

PROJECTS

Tajir E-commerce Platform May 2024

Developed as part of my Bachelor's degree program, this project involved creating a comprehensive e-commerce platform using Laravel, React.js, and Bootstrap. The platform includes features such as product management, order processing, and customer management, demonstrating proficiency in full-stack development and software engineering principles.

Portfolio Website May 2024

Developed a personal portfolio website using React, Vite, and CSS to display projects and skills. Integrated emailJs for seamless contact form functionality. Employed responsive design principles for optimal viewing across different devices.

Masroofi Web Application Jan 2025

Built a personal finance management application using React, ShadCN, Tailwind CSS, and Supabase. This application helps manage and track daily, monthly and yearly financial transactions, providing insights into spending habits and budgeting. Implemented secure user authentication and real-time database updates with Supabase
